125 years of Kapsch

“Focusing on long-term success, rather than short-term profit – that’s what I like.”

Congratulations on 125 years of entrepreneurship.

challenging limits

Kapsch Group

Questioning the status quo and replacing what's good with something even better are qualities that Kapsch has appreciated ever since it was founded in 1892. This pays off for our clients and our investors. For example, in the form of 125 years of innovation or ten years of Kapsch TrafficCom AG on the Vienna Stock Exchange.
